Air-Mobile Oil Rig 6—19
New Oil Fracturing Rig 6—19
Automotive Turbine Status 6—20
800 KW Generator Set 6—20

Precision Forged Blades

for . . . INDUSTRIAL GAS TURBINES-STEAM TURBINES-TURBO BLOWERS AERO ENGINES-INDUSTRIAL HIGH TEMPERATURE FANS etc.

We adopt the most rigid control procedures using the latest mechanical and optical equipment, thus achieving our outstanding reputation for dimensional accuracy, high surface finish and closely maintained metallurgical standards.
Turbine blades in a full range of 'Nimonic' alloys and heat and creep resisting steels. Compressor blades in titanium alloys, aluminum, bronze, stainless steels etc. Send for technical leaflets.
